Brain Injury Medicine Subspecialty Exam Prep CD-ROM
This CD-ROM will help assist physicians preparing to take the ABPMR brain injury medicine (BIM) subspecialty examination by featuring:

- A review course composed of 6 case study presentations narrated by experts in the field.
- A comprehensive question bank with 267 questions, feedback with explanation, and references

**NOTE:** CME credit is not available for this professional resource.

Minimum System Requirements
The following minimum hardware/software specifications must be met or exceeded to use this CD:

- **Operating System:** Windows XP SP3; Mac OS X 10.7
- **Processor:** 1 GHz
- **Memory:** 512 MB of available RAM
- **Monitor:** 1024 x 768
- **Drive:** CD-ROM
- **Browser:** Internet Explorer 9; Safari 5.1; Firefox 12; Google Chrome 14
- **Enable pop-up windows**
- **Software:** Adobe Flash Player 10; Adobe Reader 9; Preview 4 (Mac)
- **Audio:** Computer equipped with audio output (speakers or headphones)

2016 PM&R Coding Companion
Consolidate the coding process with the one-stop resource developed exclusively for those who code for physical medicine and rehabilitation. This comprehensive guide includes the 2016 CPT® code set specific to PM&R in an easy-to-use, one-page format. Each page has the CPT® code with its official description, coding tips, clinical scenarios, global period, NCCI and MUE Edits, applicable modifiers, and Medicare work RVUs. Avoid claim denials and/or audits with the newly added E/M audit tool and exam template. Also now included EMG exam templates.

**NOTE:** CME credit is not available for this professional resource.
ICD-10 Crosswalk Sheet Bundle
Consolidate the coding process with the one-stop resource developed exclusively for those who code for physical medicine and rehabilitation. This comprehensive guide includes the 2015 CPT® code set specific to PM&R in an easy-to-use, one-page format. Each page has the CPT® code with its official description and a detailed illustration, as well as lay descriptions, coding tips, terminology, cross-coding, and national Medicare relative value units.

Get a head start on ICD-10 and learn how it will impact your practice’s top 100 most frequently used codes with these quick-reference cards. AAPM&R has crosswalked the top 100 ICD-9-CM codes in four different PM&R clinical areas to the latest ICD-10-CM codes so you can begin consideration for documentation and superbill changes, and get a jump on the 2015 implementation.

Clinical Areas
• Central Nervous System Rehabilitation
• General and Medical Rehabilitation
• Musculoskeletal and Pain / Neuromuscular Medicine
• Pediatric Rehabilitation/Developmental Disabilities

PM&R Compensation Survey Report
The PM&R Compensation Survey report includes 46-pages of detailed compensation information specific to the specialty of physiatry. The report includes compensation distribution by gender, region, type of practice, and other demographic identifiers as well as information on personal benefits, typical workweek (hours/allocation of time), and information related to liability and malpractice issues.

Data included in this report was compiled through a survey of more than 1,500 PM&R physicians. The findings of this effort equip physiatrists with valuable data that can be used to negotiate contracts and review compensation levels for competitiveness.
